Thielemann H: Tosylchloramide-sodium – a detecting agent for the chromatographic identification of organic compounds (in German) 758
Thielemann H: Analytical investigations of the adsorption of phenolic compounds on a polyvinyl-acetate resin (in German) 759
Thomas J, Beau P: ^{13}C- and ^{1}H-NMR studies of N-substituted 1,2,4-triazoles. Relative basicities of triazolic rings 825

Voigt R, see Schröder B, et al. 529

Waliszewski KN, see Waliszewski SM 528
Waliszewski SM, Waliszewski KN: GC determination of dichlofluanid (Euparen) residues and its metabolite dimethylphenylsulfamide (DMSA) in strawberries 528

New books 65, 531, 648

Abstracts

1 General analytical chemistry

1.1 Fundamentals, methods, apparatus, reagents, automation, data processing 67, 533, 651, 761

1.2 Inorganic analysis (Elements, isotopes, ions, complex compounds) 75, 542, 659, 769

1.3 Organic analysis (Elements, functional groups, compounds, structural analysis) 545, 633

2 Particular products and fields of application

2.1 Inorganic industrial products (Metals, reactor materials, salts, oxides, semiconductors, glass ceramics, building materials, industrial solutions etc.) 549, 649, 773

2.2 Organic industrial products (Coal, petroleum, petrochemical products, plastic, textiles, dyes, detergents, intermediate products, paper, leather, rubber etc.) 79, 666

2.3 Geological materials (Rocks, minerals, soils) 553, 669

2.4 Environmental matrices (Air, gases, waste gases, water, waste water, solid wastes etc.) 83, 555, 671, 777

2.5 Agricultural-technical products (Fertilizers, plants, feeding-stuffs, wood etc.) 559, 675

2.6 Foods (Cereals, root crops, oil seeds, fruits, vegetables, animal products, spices, additives, beverages etc.; tobacco and tobacco products) 86, 561, 677

2.7 Pesticides 87, 783

2.8 Pharmaceuticals and cosmetics 565, 681, 785

3 Biochemical and clinical analysis (General, elements, simple body substances, amino-acids, peptides, proteins, nucleic acids, lipids, steroids, hormones, enzymes etc.; drugs, toxic substances) 91, 567, 684, 788
